All of our products are manufactured locally in our very own specialised facility in Australia, under strict quality controlled conditions.

OUR STORY

“Since 2008, Wild One’s founders Andrew Lovric and Michael Gordon have done more than just create beverages.

They sparked a shift in the beverage industry, paving the way for healthy, organic, alternative beverages to shine among the big name competitors. Through their sheer passion and dedication to their craft, Andrew and Michael have carved their names into the beverages industry by making a positive impact with innovative, functional, healthy beverages with an outstanding product portfolio. Wild One has experienced 14+ years of growth and put smiles on faces of people all around the world, exporting to over 20 countries and servicing thousands of happy customers daily Australia wide.”

With a strong, dedicated team our focus is always on how to best service customers and the environment. Our state of the art manufacturing facility operates with 80% solar powered energy, minimal plastic use and waste and 90% organic produce, with current projections to be carbon neutral by 2023. We have implemented Cold Fusion Technology (CFT) at our facility, allowing us to offer long ambient shelf lives on all our products. At Wild One we understand the importance of preservation and sustainability and that why we do our part.

At Wild One, we carefully select only the highest quality ingredients locally in Australia and produce all our beverages in small batches to create the most interesting, refreshing and delicious flavours for the ultimate tasting and functional beverage experience.

Our team has over 50 years combined experience in beverage production and distribution and understand your needs and the needs of the consumer.

SUPERFOOD SMOOTHIES

THICK & RICH!

Happy Hippie Smoothies combine powerful, naturally healthy super-foods with high quality, carefully selected fruits, creating a functional, delicious and refreshing taste experience.

350ml Flavour Range - 12/Carton

CLEANSE

SPIRULINA is full of nutrients, powerful antioxidants, pain-relief, anti-inflammatory and brain-protective properties making it one of the most complete food sources known to man

INNERGLOW

Found in the blossoms of wild roses, ROSEHIP is a fruit used for medicinal purposes. Rosehip is known for being rich in vitamin C, shown to strengthen the immune system, reduce inflammation, reduce joint pain, aid weight loss and support healthy skin!

ENERGISE

MESQUITE is a high-protein, highly nutritious food, rich in iron, lysine, manganese, potassium, and zinc. Studies have shown that diets rich in potassium, essential minerals and electrolytes, can help to prevent stroke, high blood pressure and increase bone mineral density.

SPARKLING COLLAGEN MINERAL WATER

Live life young.... As we age, our bodies start to break down collagen faster than it can be produced. That's where Rejuvinate Collagen Water comes in, each refreshing beverage contains 3000mg of the highest quality collagen peptides to replace your lost collagen and nourish you from the inside out.

Reduced wrinkles & increased skin elasticity, thicker stronger hair, stronger nails, improved digestion and overall gut health are just a few of the benefits you may notice from supplementing with collagen.

18 months shelf life from date of production and stores ambient

330ml Flavour Range - 12 / carton

- *Mixed Berry*
- *Mango*
- *Strawberry*

CLASSIC PREMIUM JUICE

Wild Premium Juice is a fresh tasting premium quality 100% natural juice, manufactured using only the finest ingredients with no added sugar, no preservatives, no artificial colours or flavours.

By developing a blend of fresh and long life juice, we have eliminated out of date issues, resulting in 24 months shelf life from date of production and stores ambient and our square designed bottle maximizes the use of fridge space and minimizes storage.

350ml Flavour Range - 12 / carton

- *Apple & Guava*
- *Pineapple*
- *Orange*
- *Apple*
- *Apple & Blackcurrant*
- *Orange & Passionfruit*
- *Apple, Mango & Banana*

HIGH PH (9-10) ALKALINE WATER

**Product Variants -
High pH Alkaline**
500ml - 12 / carton

Wild One Alkaline Water pH 9-10 gives you faster, longer lasting ultra-hydration compared to drinking normal water. The molecules are smaller and more readily absorbed by your body's cells, helping you to rehydrate quicker. This higher level of hydration is the perfect way to replenish after a workout.

Alkaline water helps neutralise the acidity in our body, lowering excessive acidic levels caused by poor diet, stress or toxins. It is a great source of potent antioxidants, helping to protect your body from the harmful effects of damaging free radicals, boosting immunity. These antioxidants can also assist in combating the effects of cell damaging free radicals on the body helping to slow the aging process. Wild One Alkaline water is rich in naturally occurring minerals including magnesium and calcium, both are important in maintaining healthy bones. Wild One Alkaline water tastes amazing and is the perfect way to keep your body in balance.

SPARKLING WATER

Wild One sources the finest, purest and highest quality mineral water known to man. Bottled in small batches in Australia, brought to life with fine carbonated bubbles. Bottled with solar energy and in an environmentally friendly glass bottle, our sparkling water is the perfect refreshment for any occasion.

Shelf life: 36 months
